Re: C G Docket No. 03-123  
Federal Communications  
445 12th St. SW  
Washington, DC 20554

Commission (FCC)

Dear Chairman Martin, Commissioners Adelstein,  
Coppo, MacDonell & Tate.

I am a deaf person & I use Video Relay Service (VRS) to communicate. I was appalled to learn that the FCC staff is intent on drastically cutting the VRS rate and effectively cutting VRS availability for the deaf. Instead of seeking to everything in its power to make VRS available to more deaf people.

I, along with other deaf individuals use these services in both my work and personal life. It is an important way in which I/we communicate with both hearing and deaf individuals. I urge you to do everything you can to make VRS service available to the deaf people who currently do not have access to this vital, life changing service.

The VRS rate should encourage the VRS providers to:  
• serve more deaf people, not discourage them from reaching out to more deaf people  
• provide interpreter training programs so that there will be a adequate number of qualified interpreters for VRS and the local deaf communities

(over)

Provide service and technology improvements, such as the development of new videophone equipment, fulfilling the Americans with Disabilities Act (ADA) mandate of functionally ~~equivalent~~ equivalent telecommunications services

I along with other deaf individuals their families & coworkers, depend on VRS and other relay services.

Please stop any VRS programs cut and fulfill the mandate of the Americans with Disabilities Act (ADA) to provide people with functionally equivalent telecommunications service

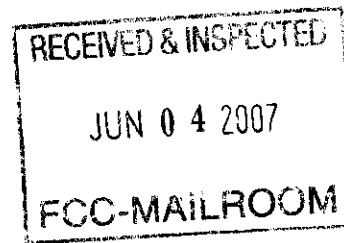

Sincerely,

Marilyn Bocharski 05-29-07

Jack Bocharski 05-29-07

Phyllis Elliott 05-29-07

Re: Docket Item #07-16

Dear Secretary:

It is my understanding that the Federal Communications Commission has before it a proposal that would provide fast, free and family friendly universal wireless Internet access through the country.

This is a great idea and I hope the FCC will give the proposal its most serious consideration.

Having had the unique honor of serving as both a Board Member of the Dallas Independent School District and as a State Representative in the Texas House of Representatives, I realize that to fully access our economy, government services and the expanding services over the Internet, our citizens need affordable access to broadband technology.

We must assure education opportunity for all our children. To do so requires that each child has internet access. We need it to allow small business owners equal access to services provided over the Internet as well as help them market a service or product to consumers worldwide. We also need it to allow citizens the ability to have a more effective voice in our local communities and our state and federal government. We accept as standard that everyone should be able to listen to the radio and access TV. Wireless Internet is the new technology that should also be accessible.

The M2Z proposal now before the FCC deserves consideration. It provides an extraordinary opportunity to provide all Americans fast and easy access to the Internet. Thank you for giving it, and other related proposals, your thoughtful deliberation.

Thank you.

Sincerely,

Harryette Ehrhardt

FCC Mail Room

Dear Chairman Martin Commissioners  
Adelstein, Copps, McDowell, and Tate,  
I am Deaf person and I use video Relay service  
(VRS) to Communicate. I was appalled to  
learn that FCC Staff is intent on drastically  
cutting the VRS Rate, and Effectively cutting  
VRS availability for the Deaf. Instead of  
Seeking to Limit the Number of deaf people  
with VRS access the FCC Should do everything  
in power to make VRS available to more deaf people.

I Along with other Deaf Individuals, use  
these service in Both my work and personal  
life. It is an Important way in which I/we  
Communicate with Both hearing and deaf individuals.  
I urge you to do everything you can to make  
VRS service available to the Many Deaf who  
currently do not have Access to this Vital,  
Life-Changing Service.

- The VRS Rate Should encourage the VRS providers  
serve more deaf people <sup>not</sup> discourage them from  
Reaching out to more deaf people.

Provide Interpreter Training programs so that there  
will be an Adequate Number of qualified  
Interpreters for VRS and the Deaf Communicates.

- Provide Service and Technology Improvements such  
as the ~~ADA~~ development Act (ADA) of New  
Video Phone Equipment Fulfilling the American  
with Disabilities Act (ADA) Mandate of  
Functionally Equivalent Telecommunications  
services. I Along with other deaf Individuals,  
Families and Co-workers, depend on VRS  
and other Relay services.

Please Stop any VRS program cuts and Fulfill  
The mandate of the Americans with Disabilities  
Act (ADA) to provide deaf people with  
Functionally Equivalent Telecommunicati  
Services.

Sincerely,

Frank J. Camardella

*Frank J. Camardella*

I was appalled to learn that the FCC staff is intent on drastically cutting the VRS rate, and effectively cutting VRS availability for the deaf. Instead of seeking to limit the number of deaf people with VRS access, the FCC should do everything in its power to make VRS available to more deaf people.

I, along with other Deaf individuals, use these services in both my work and personal life. It is an important way in which I/we communicate with both hearing and deaf individuals. I urge you to do everything you can to make VRS service available to the many deaf people who currently do not have access to this vital, life-changing service.

The VRS rate should encourage the VRS providers to:

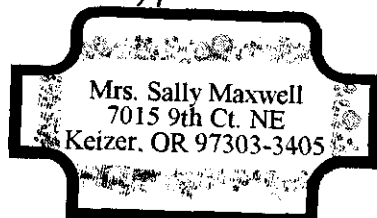

- Serve more deaf people, not discourage them from reaching out to more deaf people
- Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS and the local Deaf communities
- Provide service and technology improvements, such as the development of new videophone equipment, fulfilling the Americans with Disabilities Act (ADA) mandate of functionally equivalent telecommunications services

I, along with other deaf individuals, their families and coworkers, depend on VRS and other relay services.

Please stop any VRS program cuts and fulfill the mandate of the Americans with Disabilities Act (ADA) to provide deaf people with functionally equivalent telecommunications services.

Sincerely,

*Sally Maxwell*
